

FAIRNESS CODEX

SWISS TESTING LABS

As notable factories in the Swiss Laboratory Branch, the members of Swiss testing Labs accept to respect following rules.

Quality

The members of Swiss Testing Labs accept to provide their service prestations according to recognised Standards of Quality. In this sense they take in account the actual state of technique and science and respect the valid legal regulations (e.g. legal dispositions in the fields of Medical, Chemistry, Environment and Food), such as the norms of private and national Organizations and Places (EN, ISO, a.s.o.)

All the members of Swiss Testing Labs are obliged to meet and receive a System of management of Quality.

Fairness

Each the promotion or other publication of Service presentation from a member of Swiss Testing Labs has to be made according to reality and fairness.

The members renonce to make any promotion what does no correspond to equity, truth or what leads to disagreements in comparison with service prestations of other members of Swiss Testing Labs.

The members of Swiss Testibg Labs accept to respect the same base rules in the proposed works as those proposed in the promotion affirmations.

Transparency

If a Lab is not able to carry out a submitted work by himself, and if this is transmitted to other Labs, he will provilege according to the given possibilities, another member of Swiss Testing Labs. The transmission of mandates without a corresponding information to the customer may not be acceptable.

Penalties

Infringements against the prescriptions of present Codex will be judged according to jurisdiction of the Association.
